

STERI-FAB

DISINFECTANT
INSECTICIDE
DEODORANT

No. 7040
16 oz. Spray
12/case

No. 7041
1 Gallon
4/case

**Kills BED BUGS, roaches, lice, fleas, dust mites
& other insects. EPA Registered.**
For use on porous surfaces, i.e. mattresses, etc.

Steri Fab is the best one to use if you have a bed bug infestation. I had bed bug issues for the last 2 years and spent hundreds of dollars for exterminators and throwing away infested mattresses and bedding materials. So far, I have ordered 2 gallons and have constantly sprayed on weekends for over 4 months now. Vacuumed the dead bugs and eggs regularly and the bed bugs are gone! Though I was first skeptical at the manufacturer's claim that it is safe to use on mattresses but the product did not cause any issues even for my dad who has a really sensitive skin. Recommend this product (either gallon or the pint) for anyone who even think they have a bed bug issue.
